# Doulton Ceramic Twin Undersink

Premium Drinking Water System

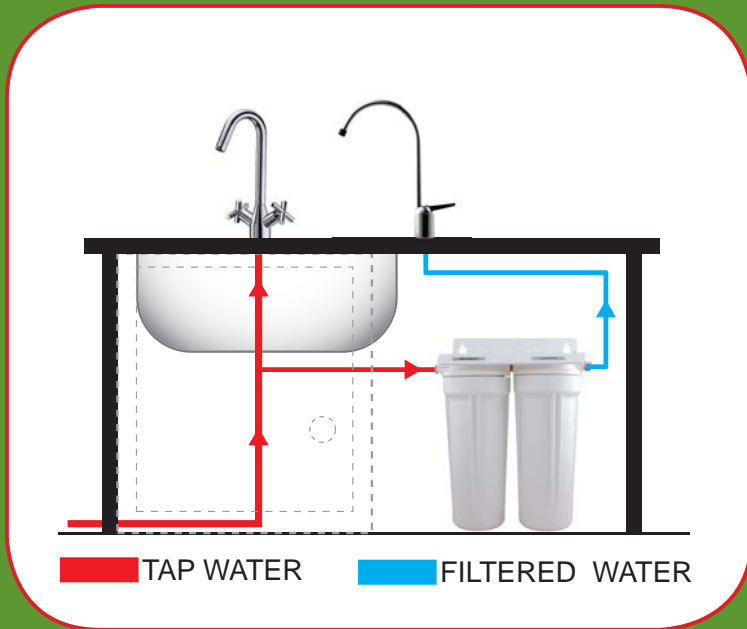

**0.2 MICRON - DOULTON CERAMIC**  
Complete Micro Biological Protection

**1 MICRON - CARBON "SUPERBLOCK"**  
Superior Chemical + Heavy Metal Removal

**5 YEAR WARRANTY**  
Hand Built and Factory Tested

## PLUMBING OPTIONS

1/2" Tap Connector \*

3/4" "Dishwasher" \*

1/2" Brass Tee with PLV

\* All Fittings include Pressure Limiting Valve (PLV)

Scrub-Clean, Ceramic Pre-Filter

Bacteria, Cyst and Parasite Removal

# DOULTON STERASYL / SUPERBLOCK TWIN UNDERSINK

## STAGE 1 - DOULTON CERAMIC 0.2 MICRON PRE-FILTER

**D**OULTON CERAMIC FILTERS have provided microbiologically safe drinking water around the world for over 100 years. As the first stage filter cartridge in the Twin Undersink System, the Doulton Sterasyl Ceramic Filter Cartridge has two important functions:

- 1) Mechanically filters out harmful bacteria and parasites such as Ecoli, Giardia and Cryptosporidium as well as dirt, rust and sediment.
- 2) Removing the above contaminants protects the Carbon Block cartridge allowing it to function more effectively and last longer. Unlike standard disposable Sediment Filters, the Doulton Ceramic can be scrubbed clean as needed.

REMOVES
PARASITES / CYSTS
CRYPTOSPORIDIUM
GIARDIA
BACTERIA
E-COLI BACTERIA
SALMONELLA
CHOLERA
SEDIMENT
DIRT
RUST

## STAGE 2 - CARBON BLOCK 1 MICRON POST-FILTER

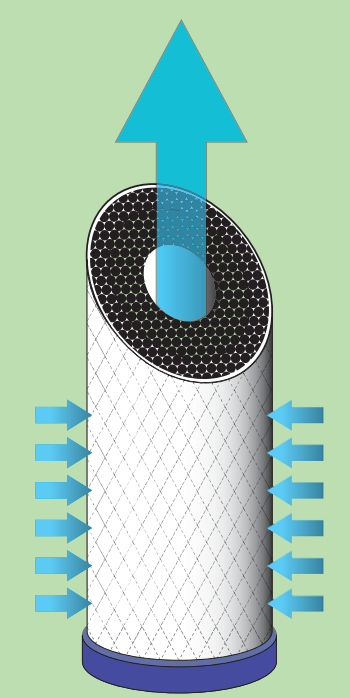

REMOVES
CHLORINE
ALUMINIUM
CADMIUM
COPPER
IRON
LEAD
MERCURY
ZINC
ODOUR

**T**he DOULTON TWIN UNDERSINK combines Ultra-fine ceramic technology with a premium one micron carbon block filter manufactured in USA.

The one micron carbon block filter effectively removes all chlorine, chemicals, pesticides, unpleasant tastes and odour along with harmful heavy metals.

Made from premium coconut-shell carbon, fresher, sweeter tasting water is ensured.

This combination of Ultra-fine ceramic and quality carbon will provide you and your family with superior quality filtration and much improved taste compared to other standard Twin Filter Systems.

Enjoy Pure Water..

### SCOUR-CLEAN CARTRIDGE

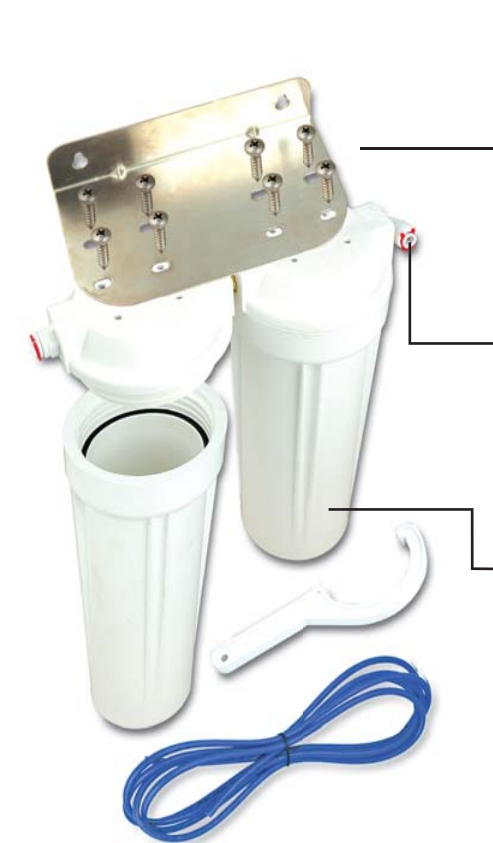

If the flow rate slows, the Doulton Sterasyl ceramic cartridge can be cleaned easily with a quality scrubbing pad such as Scotch Brite® under running water. Cleaning frequency will vary depending upon water quality.

### FILTRATION TEST RESULTS

IMPURITIES	% REDUCTION
ESCHERICHIA COLI	100.0
RESIDUAL CHLORINE CONTENT	99.9
TRIHALOMETHANES (THM)	
BROMODICHLOROMETHANE	99.5
BROMOFORM	99.5
CHLOROFORM	99.5
DIBROMOCHLOROMETHANE	99.5
METALS	
ZINC, IRON	99.0
LEAD, MANGANESE, CADMIUM	99.9
COPPER, MERCURY	99.9
ALUMINIUM	99.0

Australian Water Quality Centre, SA, 15 March 2002

### QUALITY COMPONENTS

- Stainless Steel Bracket and Screws**  
Non-corrosive, High Strength, Longevity
- John Guest**  
The World Leader in Push-in Fittings  
Quick-connect fittings & Tube  
MADE IN UK
- Highest Grade High Pressure Housings**  
MADE IN USA  
Tested to exceed Australian Standards  
AS/NZS 3707: 2001  
6 December 2005
